

fotofever

p a r i s

1st Edition

More than ever, in November 2011, Paris will be the world's main stage of photography. Visitors, professionals, collectors, and journalists and photographers will gather for an incredible week dedicated to photography. Enthusiastic with the effervescent market of photography, Paris is hosting a new event: **fotofever**.

Fotofever will take place in the espace Pierre Cardin, a few steps away from the Grand Palais. There, you will all be able to share your passion for contemporary photography, digital art and video. The key word for the event is discovery!

Cécile Schall, the creator of this new event, instills into **fotofever** a spirit of discovery and independence that her grandfather - the photographer Roger Schall - would have called for.

For its first edition, **fotofever** will present around 30 international galleries in a beautiful space designed by scenograph Stéphane Plassier.

Open to new artistic perspectives, **fotofever** will explore all aspects of contemporary photography, digital art and video. This is a concept and exhibition for other capitals too: Brussels, Geneva...

PHOTOGRAPHY ART FAIR

30 INTERNATIONAL GALLERIES

NOV 11-13, 2011
ESPACE PIERRE CARDIN

1 AV. GABRIEL | JARDIN CHAMPS ELYSÉES PARIS | M° CONCORDE

THE EVENT
OF THE OTHER
PHOTOGRAPHY
STAGE

We are honored to present the first galleries selected:

3ème Rue Galerie

Paris/Marseille - France

3ème Rue Galerie relies on a simple idea: present an artist simultaneously in two galleries in two French cities Paris and Marseille. For fotofever, 3ème rue Galerie will present prints by Benjamin Dubourg. This photographer transforms subjects into signs. His artistic expression is made of visual poetry. « I will remain an earthman » Benjamin says, questioning the dimensions of reality.

Envie d'art

Paris - France

The ENVIEDART galleries were created 10 years ago by Yann and Cathy Bombard: 3 galleries in Paris, 1 in London that represent a new generation of galleries. A friendly atmosphere and a rigorous selection of work. 4 photographers will be presented in fotofever: Joseph Klibansky from South Africa whose urban landscapes reshape the idea of the city; Michael Lafontan, whose world is strongly inspired by his northern roots; Robbert Fortgens who takes photographs like a painter. Last but not least, French photographer Jean Michel Berts whose new portraits revisit realism in photography.

Espace Art 22

Brussels - Belgium

Created by two like souls, the photographer Eric de Ville de Goyet and the Art historian Didier Brouwers, L'Espace art 22 presents 3 artists : the Russian Oleg Dou, whose supernatural portraits, clones from another world, incarnated by their singular look, intrigue us by their strangeness. Cai Hongshuo takes up the traditional themes of etchings and or Far-Eastern artistic culture; the photomontages of Eric de Ville are satirical or humorous regarding important social themes.

Galerie Antonio Nardone

Brussels - Belgium

"We are a particular sort of gallery", Antonio Nardone explains. "We work only with artists we meet, get to know well and observe as they work in their workshop". His exhibition: "the show of 250" (work under 250 euros) has brought him success. Here at fotofever, he will present the paradoxical images of Patrick Van Roy.

Galerie Beckel Odille Boicos

Paris - France

Daniel Beckel, an international lawyer (USA), Pascal Odile, an expert in art and gallerist (France) and Christophe Boïcos, a professor of art History (Greece) opened their gallery 10 years ago. They present artists who express the contemporary world through traditional media. Photography is one of them. Here, in Espace Pierre Cardin, they will show the totally new composition of Russian artist Vadim Guschin whose work reminds us both of Malevitch paintings and still lives of Flemish Masters. South African Vivian van Bleck's 'photo collages' will also be exhibited and her nostalgic vision of a troubled Eastern Europe, along with Jean-Christophe Ballot, whose shots of cities and museums explore the invisible presence of emptiness.

Gallery Ella Arps

Amsterdam - Netherlands

Founded in 1902, the Arps&Co gallery became the official supplier of the Royal Residence and a place where contemporary artists can get together. Fotofever gives her the opportunity to show Elizabeth Kleinveld and her drifting flora continuously attracted by seemingly sleeping waters. Dutch artist Annelies whose nude models are driven by the light of emptiness will also be presented, as well as Italian photographer Franco Fontana who plays with colour, light and the human body.

Galerie François Giraudeau

Les Portes en Ré - France

François Giraudeau has a gallery, opened seasonally, on the l'île de Ré (off the coast of La Rochelle) where he was born. There, he presents the work of 4 photographers he will show in fotofever: Manolo Chrétien and his New York aluminations, Laurence Dugas-Fermon who explores desire, absence, and the passionate search for The other, Alain Longeaud represents the confusion of inner lives and Eric Neveu, manipulator of images.

Galerie Heine

Strasbourg - France

One creed: "Always present photographers whose work has a connection with painting, through a real work on color. With patience and passion." For fotofever, 4 artists: Miryan Klein, who is concerned by the problems of modern society. Her passion is most striking. David Cousin-Marsy, poetic urban planner who photographs ordinary fragments of cities. François Nussbaumer and his irradiated wrecked cars bring back new realism. Finally, Roland Edzard who plays with looks and attitudes that say more than words could.

Galerie Pennings

Eindhoven - Netherlands

Founded in 1979, Galerie Pennings is the oldest gallery specialized in artistic photography in Holland, a reference in contemporary photography. Selected for fotofever: Misch Keijser and his quiet and contemplative landscapes, Suzanne Jongmans whose portraits recall the Renaissance painters and whose graphism is timeless and fascinating.

Hamburg Kennedy

Photographs

New York - USA

Private showroom founded 30 years ago, HK Photographs exhibits several vintage and contemporary photographs, especially post World War II artists. The selection for fotofever: Elliot Erwitt, one of the most popular photographers from the USA for whom the ICP organized a retrospective show until August 28th, 2011. Kim Joon (from Korea) will also be presented through his photographs of mutant tattooed bodies. The third artist is David Drebin who is brilliant at composing with dark and light stories of desire.

Living with art

New York - USA

As the name of the gallery indicates, the art works are set up in a space organized like a flat, in order to understand "what it means to live with them". The selection for fotofever: Chinese artist Zhou Hongbin who photographs surprising, new worlds that catch the attention; Mimi Yuming, Chinese as well, presents fantasy worlds inspired by video games; and French artist Albert Delamour who will exhibit "Les Pisseuses", inspired by painting.

Through a very strong and diverse selection, fotofever is deeply committed to young collectors who wish to be surprised, encouraged and seduced. Artists, experts, collectors will gather to discuss and learn about photography. They will all gather on Saturday night for the Saturday Night fotofever: the photography party in Paris!
